

I am opposed to the proposed changes in the "Do Not Call" Law. IAs a citizen have a right to privacy and don't wish to be disturbed by telemarketers. Most of them harass and take advantage of people going through difficult times, such as divorcees, people having income problems, or the elderly. These calls are annoying and they should not be bothering and harassing people in the privacy of their own homes. FURTHER, I AM OPPOSED TO TELEMARETERS GETTING ACCESS TO CELL PHONE NUMBERS. CELL PHONES WILL BE GOING OFF AT PEOPLE'S JOBS, AT COLLEGE STUDENTS CLASSROOMS, ETC. THIS IS NOT APPROPRIATE. Moreover, cell phones are expensive and the minutes will be run up by these annoying calls. People have hard of enough time keeping cell phones quiet, let alone, if they become open to the public. A CELL PHONE CAN BE A LIFE SAVING DEVICE FOR SOME PEOPLE, SUCH AS WOMEN, WALKING ALONE, DRIVING, ETC. IF TELEMARETERS GET IN ON THE SEEN, CELLL PHONES WILL BECOME TOO ANNOYING AND THEREFORE BE PROHIBITED AND THE PEOPLE SUCH AS MYSELF THAT LITERALLY USE MY CELL PHONE FOR PROTECTION, WILL BE PROHIBITED FROM TAKING THE CELL PHONES TO PUBLIC PLACES, ETC. THIS ISN'T A GOOD IDEA. THE PUBLIC DOESN'T LIKE TELEMARETERS CALLING IN THE FIRST PLACE, WHY WOULD WE GIVE THEM MORE LEEWAY??????????
